Hallo,

Ik ben Jerom. Ik ben een compostworm.

Bah, wat vies, een worm!

Kennen jullie mij eigenlijk?

Mijn vriendin de regenworm ken je wel.

Ze heet Fien.

Als het nat is, komt Fien wel eens op het terras of op de speelplaats.

Dat doe ik nooit.

Ik blijf lekker onder de bladeren of in een composthoop zitten.

Weet je wat ik onder de bladeren doe? Ik woon daar. Daar is mijn huis.

Als je de bladeren zacht wegduwt, kan je me soms zien.

Ik kruip dan snel weg.

Niet omdat ik bang ben, maar omdat mijn lijf niet tegen licht kan.

In het licht heb ik pijn. Ik zit dus graag in het donker.

Door al die bladeren is er veel eten voor mij.

Ik koop mijn eten dus niet in de winkel.

Ik vind mijn eten zomaar in het bos.

Elk jaar vallen de bladeren op de grond.

Gelukkig doet het geen pijn als ze op mij vallen.

Ooit viel er eens een noot op mijn kop. Dat deed wel pijn zeg!

Onder de bladeren woon ik niet alleen. Hier wonen nog veel vrienden.

De bladeren zijn groot en droog. Zo lust ik ze niet.

Eerst maken mijn vrienden de bladeren mals
en maken ze er kleine stukjes van.

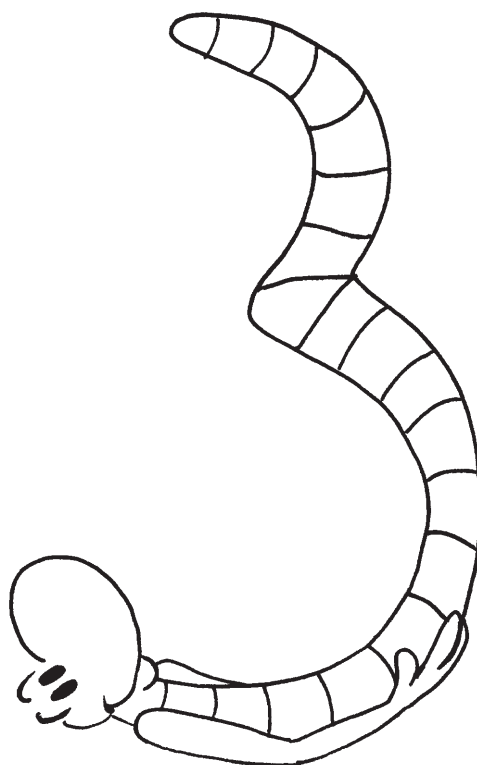

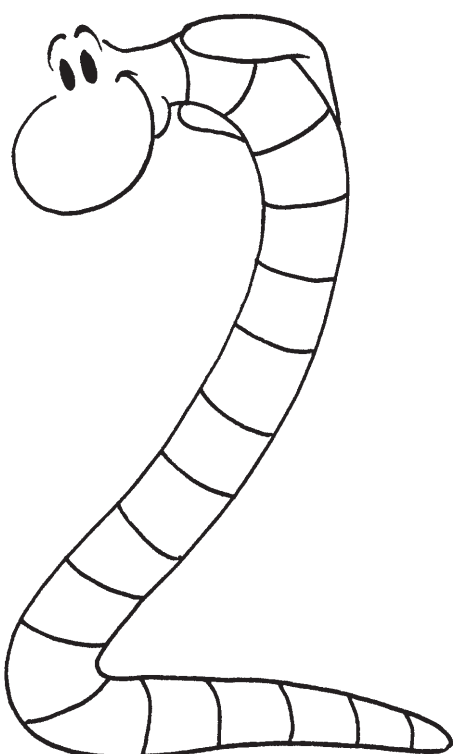

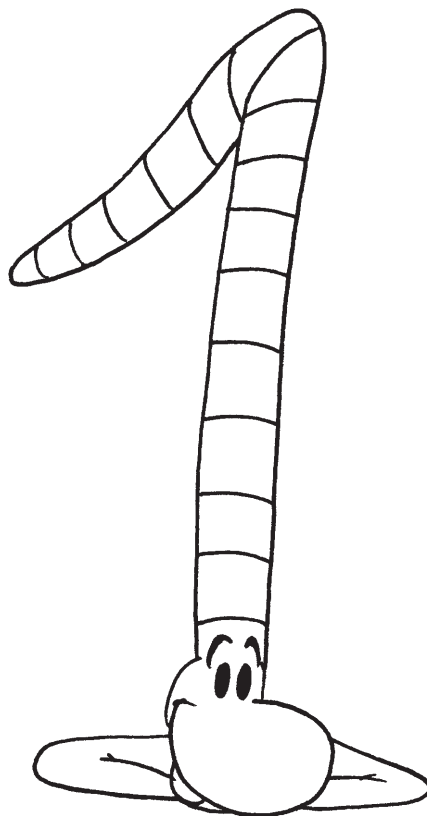

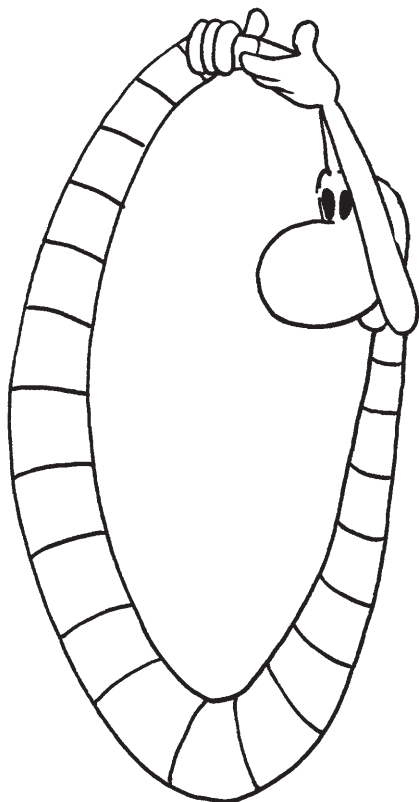

Als hun buikje vol is, eet ik de rest op.

Als alles bijna op is, wordt het weer herfst.

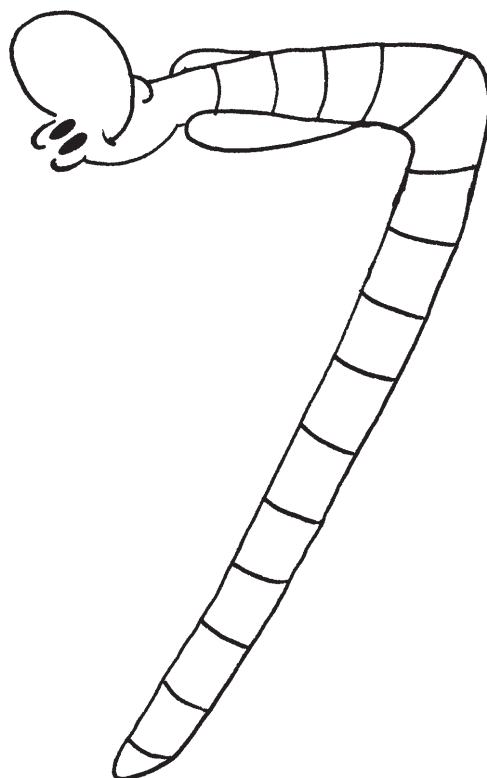

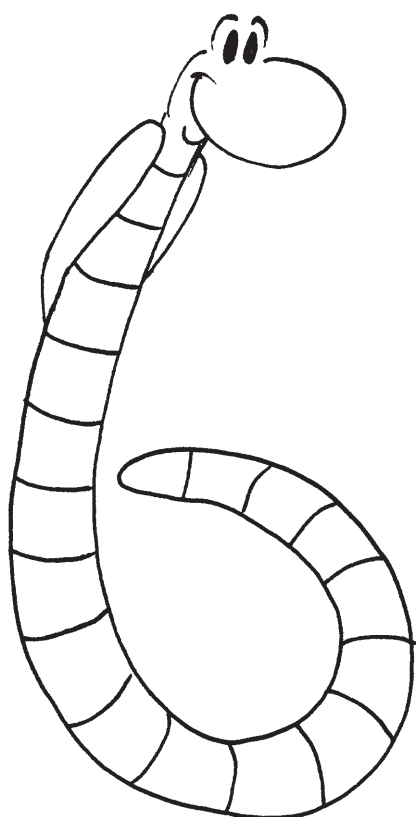

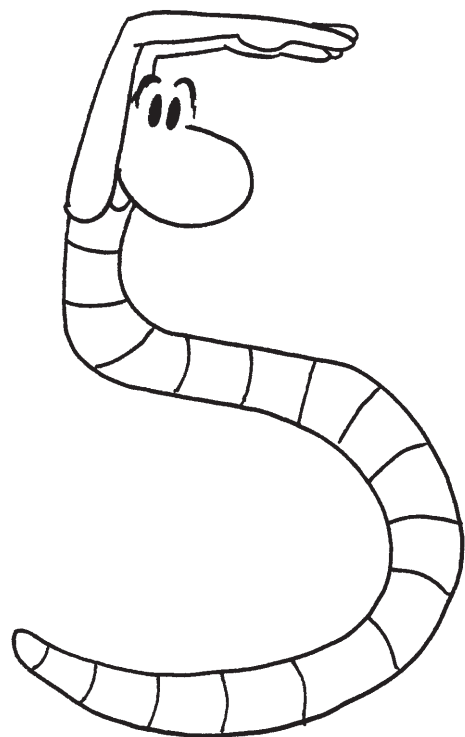

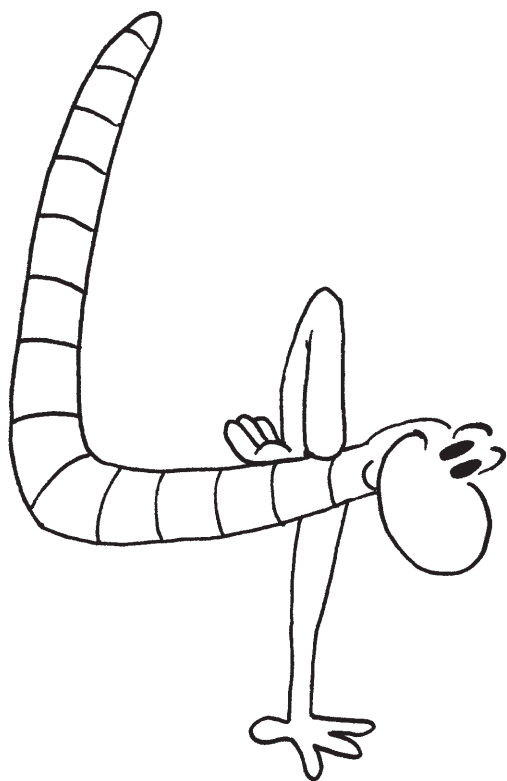

Dan vallen er weer nieuwe bladeren naar beneden.

Zo hebben we altijd genoeg eten.

OBSERVATIEBLAD BODEMDIEREN

Om de naam van een diertje te ontdekken heb je een determinatiekaart nodig. Schrijf eerst een aantal zaken op, dan kan je de determinatiekaart beter gebruiken. Voor vele diertjes heb je een loeppotje of een vergrootglas nodig.

Tel de pootjes. Het zijn er: nul
 zes
 acht
 veertien
 heel veel

Tel de vleugels. Het zijn er: nul
 twee
 vier

Heeft het voelsprieten aan zijn kop? ja nee

Heeft het een schelp? ja nee

De kleur van het diertje is

Het diertje loopt snel
 loopt traag
 springt
 zit stil

Welke naam zou jij aan het diertje geven?

OP BEZOEK BIJ FIEN REGENWORM

Dag kinderen,

Ik ben zo blij. Ik mag op bezoek bij Fien.

Ken je haar nog? Fien is een regenworm.

Een regenworm is geen compostworm.

Fien is veel groter en langer dan ik.

Vandaag geeft Fien een feest. En ik mag ook gaan.

Ik ben wel heel blij, maar ook een beetje ongerust.

Fien is een echte danser.

Na twee, drie noten muziek staat Fien al te dansen.

Als zij mij vraagt om met haar te dansen, hoe moet dat dan?

Ik ben nog niet half zo groot als Fien. Al mijn vrienden zullen lachen.

En waar zal het feest zijn? In Fien haar huis?

Brrr. Fien woont wel twee meter onder de grond.

In de grond maakt zij lange gangen. Dat is goed voor de planten.

De wortels hebben dan veel lucht.

Ik composteer boven de grond.

Fien komt mijn korrels halen en neemt die dan mee naar onder.

Dat is goed voor de grond. Zo hebben de planten veel vitaminen.

Ja, wij werken heel goed samen, Fien en Jerom.

Kom, ik ga naar het feest. Er zullen nog wel andere dieren zijn.

Fred Pissebed of Klaartje Springstaartje.

Tot ziens!

OBSERVATIEBLAD REGENWORMEN

Schrijf ja of nee:

De regenworm heeft: **voelhoortjes**

pootjes

een kop

een staart

Voelt als je hem aanraakt: **koud**

warm

glad

ruw

vochtig

droog

Wat gebeurt er met de bladeren in de wormenbak?

.....

.....

Leg een worm op een stukje schuurpapier.
Als je heel stil bent, hoor je iets! Wat?

.....

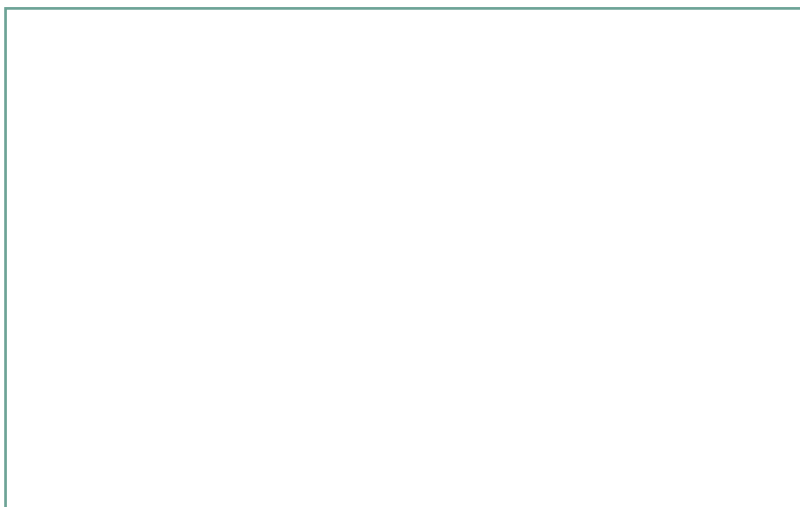

.....

OBSERVATIEBLAD REGENWORMEN

Wat eet de regenworm?

.....

Teken een regenworm.

Teken de regenwormenbak.
